

R13.1 · 28 September 2026

File Guide

Every file in the Little Mermaid build — what it is, who uses it and when — and the latest triple check

32 files in the show package	9 in the base package	74 in the production folder	27/27 build checks passed
--	---------------------------------	---------------------------------------	-------------------------------------

HOW THE BUILD FITS TOGETHER

The show folder is the one source for the show. package/TLM_nov_2026_final holds the QLab workspace, the Mantra show file and their maps. The assembler adds the media from Drive to make the folder that goes on the show Mac's Desktop.

The venue base package (base/Plantagenet_Players_Base_2026_r1, its own zip) is the venue's rig on its own: the base Mantra file and QLab base with their guide, printouts and previz. It is not in the show package; the show file is built on it and checked to match.

The production folder holds the book, printouts, plans and previz, all rebuilt from the show files by the tools, so the paperwork always matches the files.

Build check

From tools/verify_show.py (full text: TLM_nov_2026_final_Build_Check.txt; a copy is in the package as TLM_nov_2026_final_BUILD_CHECK.txt). **Result: PASS** — 27 checks, 0 failed.

	Check	Result	Detail
1.1	Files · Every package file is present, with no stray files	OK	32 files in package/, all 13 control files present
1.2	Files · Control-file SHA-256 = BUILD_METADATA.json + assembler (show) = BASE_METADATA.json (base)	OK	4 files, 3 places each: qlab 97f1e0cfd574..., mantra 9f1900285313..., mantra_base e273d54b71ab..., qlab_base 35cf343d1870...
1.3	Files · Mantra [ZZ_FileEnd] Size footers match the file sizes	OK	show 4482340 bytes, base 198628 bytes
1.4	Files · Mantra files are well formed (sections, cue keys in order, memory headers)	OK	440 + 120 sections
1.5	Files · QLab workspaces are intact (references, round trip, totalCues)	OK	show 479 cues (totalCues 479), base 456 cues
1.6	Files · CSV and JSON files parse with the expected rows	OK	manifest 80, section map 153, fix list and SFX map rectangular, metadata JSON valid
1.7	Files · Scripts compile (Python) and parse (bash)	OK	33 Python files compile; assembler and build_package.sh parse
2.1	The show · Cue numbers are unique; emergency cues E1–E3 present	OK	173 numbered cues, none repeated
2.2	The show · Every OSC message: what QLab sends = the cue name, on the MANTRA patch	OK	187 OSC cues checked, all on the MANTRA patch
2.3	The show · Every OSC target exists in the Mantra show file	OK	every page/memory/cue exists; levels 0 or 100; fades 0–10 s
2.4	The show · Section map names = the Mantra cue names (and the P8 backup copies)	OK	153 positions: names match, and every P8 backup cue equals its performance cue
2.5	The show · Releases: each memory is released as the show leaves it; nothing stacks	OK	one scene/song memory up at a time through all 97 show groups; ends on P3M6
2.6	The show · Flash hits return by themselves (QLab pre-wait 0.1–1.5 s)	OK	5 flash cues, each with an automatic return
2.7	The show · Fades target a cue that is already running, with the level in their name	OK	97 fade cues: targets exist and are already running; FADE TO levels match
2.8	The show · Audio: every file in the manifest, every manifest file used, levels ≤ 0 dB, songs at 0 dB	OK	80 media targets (69 audio cues) all in the 80-file manifest; all 80 used
2.9	The show · Bundled placeholder sounds exist and are as long as their cues expect	OK	11 bundled WAVs, each used and long enough
2.10	The show · No strobe, macro or reset values in the show; chases under 3 flashes a second	OK	strobe, colour macro, control and reset are 0 in every show cue; chases ≤ 3 steps/s
2.11	The show · Patch: 40 fixtures, types by number, no address overlaps	OK	show and base: 12 C42 · 10 Zoom · 11 COB · 6 PixBar · hazer, no overlaps

	Check	Result	Detail
2.12	The show · Fixed FOH C42 jobs: programming follows the positions	OK	faces #1, 4, 5, 8, 9, 12; Spirit #2, Octavia #11, Shell #10, Dame #3, Flanders #7, Ariel #6
2.13	The show · Review edits still in place (white flashes, storm palette, house blue, shell levels)	OK	all four lighting fixes found in the show file
2.14	The show · Venue base matches the show file (patch, fixtures, network, rig view, P1, 100–109)	OK	OK: Plantagenet_Players_Base_2026_r1.mtr matches TLM_nov_2026_final.mtr (38 sections: patch, fixtures, network, rig view, P1, memories 100-109) · OK: Plantagenet_Players_
2.15	The show · The base is a separate package: complete on its own, and nothing of it in the show package	OK	base/Plantagenet_Players_Base_2026_r1 complete (files, docs, guide, previz, checksums); nothing of it in the show package
3.1	Paperwork · Rebuilding the book, printouts and base docs reproduces the committed files	OK	75 committed outputs compared (PDFs by text, others byte for byte): all current
3.2	Paperwork · Fixture names, jobs, specials and hang positions agree across the paperwork	OK	labels, Part B focus/specials and the 8 moves agree; C42s and pelmet PixBars never move
3.3	Paperwork · No stale statements left in the book sources or package notes	OK	none of 6 stale patterns found
3.4	Paperwork · Every file the read-me files and README point to exists	OK	all file names in README, READ_ME_FIRST and 00_START_HERE exist
3.5	Paperwork · Every file in the package, base and production folders is described in the File Guide	OK	all 115 files described

1 The show package — package/

File	What it is	Who / when	Size
ASSEMBLE_TLM_nov_2026_final.command	Assembler: merges the media from the three Drive zips around the control files, places all 80 media files and checks the four control-file checksums	QLab op — double-click once	8.6 KB
READ_ME_FIRST.txt	How to turn this package into the show folder on the show Mac	QLab op — first	3.0 KB
SOURCE_ZIPS.csv	Links to the three Drive media zips the assembler needs	QLab op — before assembling	967 B
TLM_nov_2026_final/00_START_HERE.txt	Show-Mac setup steps and the list of show files	QLab op / LX — setup	5.3 KB
TLM_nov_2026_final/BUILD_METADATA.json	Checksums of the show QLab and Mantra files and the history of every change	Checking a copy	6.1 KB
TLM_nov_2026_final/TLM_nov_2026_final.mtr	THE Mantra show file: P2 Act One, P3 Act Two, P4 songs, P5 FX, P6–P7 looks, P8 backup; built on the venue base	LX — import on the desk	4.3 MB
TLM_nov_2026_final/TLM_nov_2026_final.qlab5	THE QLab 5 show workspace: 479 cues, every sound, backdrop and lighting GO	QLab op — every show	2.9 MB
TLM_nov_2026_final/TLM_nov_2026_final_MANTRA_SECTION_MAP.csv	Every Mantra position: page, memory, cue, name, fade, the QLab cue that fires it, P8 backup position	LX — backup running	8.1 KB
TLM_nov_2026_final/TLM_nov_2026_final_MANTRA_SECTION_MAP.txt	The page/section layout and flash returns in plain text	LX	2.1 KB
TLM_nov_2026_final/TLM_nov_2026_final_MEDIA_MANIFEST.csv	The 80 media files QLab uses, by exact path	Assembler / QLab op	4.4 KB
TLM_nov_2026_final/TLM_nov_2026_final_QLAB_AND_DESK_FIX_LIST.csv	Done / to-do list for QLab, the desk and the rig	Production / LX	6.3 KB
TLM_nov_2026_final/TLM_nov_2026_final_SFX_RETARGET_MAP.csv	Which new SFX file each audio cue plays, its length and what it was built from	Sound	7.5 KB
TLM_nov_2026_final/docs/FOH_Flashing_Lights_and_Haze_Notice.pdf	A4 notice for the doors: flashing lights and haze	FOH — print and post	2.0 KB
TLM_nov_2026_final/docs/TLM_nov_2026_final_File_Guide.pdf	This guide	Everyone	42.4 KB
TLM_nov_2026_final/docs/TLM_nov_2026_final_Lighting_Changes.pdf	Every lighting change: programming fixes, fixed FOH jobs, rig moves, files	LX / production	31.1 KB
TLM_nov_2026_final/docs/TLM_nov_2026_final_Mantra_Labels.pdf	Show fader labels, playback rows, reminder strips, page tabs	LX — print	52.5 KB
TLM_nov_2026_final/docs/TLM_nov_2026_final_Operator_Cue_Sheets.pdf	SM calls, QLab GO list, Mantra backup, haze/FX and deck sheets	Operators — print	101.1 KB
TLM_nov_2026_final/docs/TLM_nov_2026_final_Review_and_Fix_List.pdf	The R13.1 review and fix list as supplied	Reference	15.1 KB
TLM_nov_2026_final/docs/TLM_nov_2026_final_Zoom_Adjustment.pdf	How to set zoom on the Zooms #13–22, with a record sheet	LX — focus	46.7 KB

File	What it is	Who / when	Size
TLM_nov_2026_final_BUILD_CHECK.txt	The latest triple check of the whole build (tools/verify_show.py)	Anyone — before tech	4.5 KB
TLM_nov_2026_final_REVIEW_NOTES.txt	What was checked and changed in each round, and what is still to do	Production / LX	5.6 KB
TLM_nov_2026_final/... (11 files)	Bundled placeholder sounds (10) and the Q19.2 rain burst; the rest of the media comes from the Drive zips	Assembler	29.7 MB

2 The venue base package — base/Plantagenet_Players_Base_2026_r1/

File	What it is	Who / when	Size
Plantagenet_Players_Base_2026_r1/00_READ_ME_FIRST.txt	What the base package is and the first steps	LX / venue	2.1 KB
Plantagenet_Players_Base_2026_r1/BASE_ME_TADATA.json	Checksums of the two base files	Checking a copy	388 B
Plantagenet_Players_Base_2026_r1/Plantagenet_Players_Base_2026_r1.mtr	The venue base Mantra file and its QLab base (their only home: not in the show package)	LX / venue	194.0 KB
Plantagenet_Players_Base_2026_r1/Plantagenet_Players_Base_2026_r1.qlab5	The venue base Mantra file and its QLab base (their only home: not in the show package)	LX / venue	1.8 MB
Plantagenet_Players_Base_2026_r1/docs/Plantagenet_Players_Base_2026_r1_Guide.pdf	The base guide: rig as installed, addresses, venue looks, QLab base cues, how to	LX / venue — start here	35.0 KB
Plantagenet_Players_Base_2026_r1/docs/Plantagenet_Players_Base_2026_r1_Link_Map.pdf	Base link map, desk labels and rig ID test	LX — rig day	55.2 KB
Plantagenet_Players_Base_2026_r1/docs/Plantagenet_Players_Base_2026_r1_Mantra_Labels.pdf	Base link map, desk labels and rig ID test	LX — rig day	48.7 KB
Plantagenet_Players_Base_2026_r1/docs/Plantagenet_Players_Base_2026_r1_Previz.pdf	The base lighting drawn on photos of the stage	Everyone	1.6 MB
Plantagenet_Players_Base_2026_r1/docs/Plantagenet_Players_Base_2026_r1_Rig_ID_Test.pdf	Base link map, desk labels and rig ID test	LX — rig day	52.3 KB

3 The production folder — production/TLM_nov_2026_final/

File	What it is	Who / when	Size
00_START_HERE.txt	Map of the show folder and what changed	Everyone	2.6 KB
01_Production_Book/Cue_Sheets_Printed/_ABO_UT_THIS_FOLDER.txt	What belongs in this folder	Everyone	77 B
01_Production_Book/Sections/TLM_nov_2026_final_00_Cover_and_Contents.pdf	Book cover and contents	Everyone	151.2 KB
01_Production_Book/Sections/TLM_nov_2026_final_A_Master_Technical_Production_Manual.pdf	Part A: master technical production manual and risks	Production / TD	430.8 KB
01_Production_Book/Sections/TLM_nov_2026_final_B2_Stage_Lighting_Layout_Plan.pdf	Part B2: stage lighting layout plan (A3)	LX / venue	42.1 KB
01_Production_Book/Sections/TLM_nov_2026_final_B3_Rig_Move_Guide.pdf	Part B3: rig move guide	LX crew — rig day	1.1 MB
01_Production_Book/Sections/TLM_nov_2026_final_B_Lighting_Design.pdf	Part B: lighting design, rig, looks, songs, focus plan	LX	51.5 KB
01_Production_Book/Sections/TLM_nov_2026_final_C_DMX_Patch_and_Step_by_Step_Guide.pdf	Part C: DMX patch, network, power, patch procedure	LX	41.3 KB
01_Production_Book/Sections/TLM_nov_2026_final_D_Mantra_Editor_on_Mac_Programming_Guide.pdf	Part D: Mantra programming guide and every cue as programmed	LX	64.8 KB
01_Production_Book/Sections/TLM_nov_2026_final_E_QLab_5_Programming_Guide.pdf	Part E: QLab 5 guide, songs, sound files, levels	QLab op / sound	51.5 KB
01_Production_Book/Sections/TLM_nov_2026_final_F_Operator_Cue_Sheets.pdf	Part F: operator cue sheets	Operators	101.1 KB
01_Production_Book/Sections/TLM_nov_2026_final_G_DSM_Calling_Script.pdf	Part G: DSM calling script	DSM	57.2 KB
01_Production_Book/Sections/TLM_nov_2026_final_H_Props_List_and_Preset_Sheets.pdf	Part H: props list and preset sheets	Props / deck	45.2 KB

File	What it is	Who / when	Size
01_Production_Book/Sections/TLM_nov_2026_final_I2_Backdrop_Sheets.pdf	Part I2: one page per backdrop	Projection	6.3 MB
01_Production_Book/Sections/TLM_nov_2026_final_I_Projection_Backgrounds.pdf	Part I: projection backgrounds	Projection	977.2 KB
01_Production_Book/Sections/TLM_nov_2026_final_J_Prompt_Copy_Licensed_Script.pdf	Part J: prompt copy (licensed script) — production use only	DSM	1.1 MB
01_Production_Book/Sections/TLM_nov_2026_final_K_Quick_Reference_Cards.pdf	Part K: quick reference cards	Operators	40.5 KB
01_Production_Book/Sections/TLM_nov_2026_final_L_Stream_Deck_and_Tech_Test_Run.pdf	Part L: Stream Deck and tech test run	QLab op	37.7 KB
01_Production_Book/Sections/_ABOUT_THIS_FOLDER.txt	What belongs in this folder	Everyone	106 B
01_Production_Book/TLM_nov_2026_final_Complete_Production_Book.pdf	The complete production book, Parts 00–L in one PDF (I2 backdrop sheets kept separate)	Everyone	4.2 MB
01_Production_Book/TLM_nov_2026_final_Lighting_Changes.pdf	Every lighting change in one document	LX / production	31.1 KB
01_Production_Book/TLM_nov_2026_final_Setup_and_Startup_Quick_Guide.pdf	Setup and start-up quick guide	Operators	26.5 KB
01_Production_Book/TLM_nov_2026_final_To_Find_and_Confirm.pdf	Everything still to find, supply or decide	Production — now	28.6 KB
01_Production_Book/_ABOUT_THIS_FOLDER.txt	What belongs in this folder	Everyone	114 B
02_QLab/README.txt	Where the QLab show folder lives and how it is laid out	QLab op	1.4 KB
02_QLab/TLM_QLab_cue_list.csv	Every master cue and song as a spreadsheet, with script pages	SM / QLab op	11.3 KB
02_QLab/TLM_nov_2026_final_MEDIA_MANIFEST.csv	Copy of the 80-file media manifest	QLab op	4.4 KB

TLM_nov_2026_final_Build_Check.json	The latest triple check of the build (text and data)	Anyone	5.8 KB
TLM_nov_2026_final_Build_Check.txt	The latest triple check of the build (text and data)	Anyone	4.5 KB
TLM_nov_2026_final_File_Guide.pdf	This guide	Everyone	42.4 KB
08_Venue_and_Rig/... (16 files)	Venue and rig photos	Everyone	4.4 MB

4 The tools and the rebuild order

Tool	What it does	When
tools/verify_show.py	Triple check of the whole build (files, show logic, paperwork)	After any change
tools/book/build.py	Builds the production book, sections, cue list, maps and printouts	After any change
tools/make_base_printouts.py	Base link map, desk labels, rig ID test	After a base or rig change
tools/make_zoom_sheet.py	Zoom adjustment sheet	After a rig change
tools/lighting_previz.py	Lighting previz renders and PDF (show; --base for the venue base)	After a lighting change
tools/build_base_package.py	The separate venue base package and its guide	After a base change
tools/book/file_guide.py	This guide	Last
tools/build_package.sh	Zips the show package for download	Last
tools/apply_lx_sound_edits.py	The lighting and sound review edits (already applied, guarded by checksum)	History
tools/apply_fixed_foh_jobs.py	The fixed-FOH C42 job move (already applied, guarded by checksum)	History
tools/make_qlab_base.py	Builds Plantagenet_Players_Base_2026_r1.qlab5 from the base and the show workspace settings	Only if the base changes
tools/check_mantra_base.py	Checks the venue base still matches the show file	Run by verify_show.py
tools/make_printouts.py	Show cue sheets and desk labels (called by the book build)	Via build.py

Rebuild everything after a change

1. python3 tools/book/build.py — the book, sections, cue list, maps, show printouts
2. python3 tools/make_base_printouts.py and python3 tools/make_zoom_sheet.py
3. python3 tools/lighting_previz.py, then python3 tools/lighting_previz.py --base
4. python3 tools/build_base_package.py — the venue base package and its zip (dist/Plantagenet_Players_Base_2026_r1.zip)
5. python3 tools/verify_show.py — the triple check (must PASS)
6. python3 tools/book/file_guide.py — this guide, with the new results
7. bash tools/build_package.sh — the show package zip (dist/TLM_nov_2026_final.zip)

5 Checksums of the control files

File	SHA-256
TLM_nov_2026_final.mtr	9f1900285313f4da98713534c3f1f21806e906fdda4693fba8fd7f6463beab12
