

Venue Base Lighting Preview

Plantagenet Hall · Plantagenet_Players_Base_2026_r1 · the installed rig and the venue looks, drawn on the stage

How to read it

The venue base: the rig as it hangs now (venue photos) with the venue's own focus — no show jobs, no booms.

Pictures: the whole rig, the venue looks P1 M1-M10 and memories 100-109, the rig ID sweeps I1-I4 and every fixture on its own (T1-T40 in the QLab base).

C42 #1-12 fixed on the FOH bar, #1 at the stage-right end. All 10 Zooms and COBs #29-32 on LX1; COBs #23-28 on LX2.

Assumed until the rig ID test: which COBs are on LX1/LX2, pelmet PixBars #33, #35, #37 and LX2 PixBars #34, #36, #38.

A sketch, not a photometric simulation.

The installed rig and the venue looks

Plantagenet Hall · venue base Plantagenet_Players_Base_2026_r1 · the rig as installed with the venue's own looks — a sketch of where the light lands, drawn on photos of the stage.

Whole rig at full

Every fixture at 100 % open white, as installed, tabs open

Tabs closed, rig at full

Only the FOH bar and the pelmet PixBars reach the tabs
